

HM Walk Range

PRODUCT FACT SHEET

Introduction

HM Walk is an engineered hardwood floor, which means that the surface you walk on and see is made of strong Australian hardwood, while underneath the surface HM Walk uses an extremely stable 9 ply construction made of plantation Eucalypt. This type of construction ensures the maximum use of our precious hardwood, which in turn is better for the environment. With its unique glueless locking system, HM Walk is fast and easy to install in your home.

HM Walk Range

State of the art production techniques

HM Walk incorporates the latest techniques in engineered flooring construction - from its incredibly hard wearing 13 coat system, its conservative use of the Australian Hardwood resource, through to the plantation Eucalypt plywood core. HM Walk has been engineered to be aesthetically beautiful, respectful to the environment, whilst providing a tough, dependable Australian hardwood engineered flooring.
